## Vietnam's Textile and Garment Export Rise

The export revenue of Vietnam's garment and textile industry was estimated at US\$18.34 billion in the first seven months of 2019, a year-on-year increase of 10.5%, according to a report from the Ministry of Industry and Trade (MOIT).

The export revenue hike was due to opportunities and market expansion as the result of the signing of free trade agreements (FTAs) such as the CPTPP, with a tax exemption roadmap to 0% and other incentives. In addition, the signing of the EU-Vietnam FTA in June 2019 is also expected to help the Vietnamese garment and textile sector to penetrate wider into the EU market.
